WHY INVEST IN THE UK?

“The United Kingdom stands as one of the safest, most transparent property investment markets on the planet”

The United Kingdom is widely recognised as one of the safest and most transparent property investment markets in the world.

With average rental yields of around 5.4%, and some UK cities generating yields over 9%, investment has poured in from around the globe. This provides compelling evidence that the UK property investment market is thriving. The UK government is paying attention to this demand by planning to build 300,000 new homes per year.

The North West of England has seen a considerable increase in new housing developments to meet the growing demand. Due to the high demand for rental properties in this region, investing in property in the North West is a smart choice for those looking to buy-to-let.

Manchester and Liverpool city centres have experienced remarkable growth in recent years. Due to the high cost of living in London, it's logical that many people, including young professionals, are taking advantage of these cities.

The UK has attracted a high number of overseas investors seeking investment properties for sale, due to the strength of the market and its potential for higher returns compared to other countries.

The UK offers foreign nationals the same ownership benefits as domestic homeowners, making it a safe haven market that is open to all.

INVESTING IN LIVERPOOL

With a thriving ecosystem, Liverpool is a world-class, internationally recognised city that is famous across the globe. Liverpool has recently experienced a cultural renaissance, with a rich history, music, fashion, film, and sports scene.

Liverpool is renowned worldwide as a cultural capital. It is among the most visited cities in the UK, a top 5 retail centre, a leading hub for business tourism, and was recently named one of the top 10 global cities to visit by the Rough Guide. Its international reputation for quality of life makes it an attractive place to live.

Liverpool is welcoming to foreign investment. International investors are accommodated in this fast-growing city, making UK property investment ventures run smoothly.

INVESTING IN MANCHESTER

With recognised global status and one of the UK's fastest-growing cities, Manchester offers a strong economy, cross-sector innovation, rich talent and an outstanding quality of life. Manchester represents the largest city region economy outside London, with a gross value added (GVA) of £78.8 billion.

Voted as the UK's Most Liveable City by the Economist, Manchester has something to suit everyone. From impressive museums, a rich sporting heritage, and a vibrant music scene, there is a rich variety of culture on offer.

Manchester is a city that values diversity, creativity, and opportunities. It has a reputation for attracting and retaining top global talent, with the BBC and ITV being part of the media city hub and big tech companies such as Amazon, Google, and Uber having offices in the city. Businesses set up in Manchester because they see the benefits of what the city offers.
